Dr Reecha Sharma is presenting

WHY NATIONAL TECHNOLOGY DAY CELEBRATED?

The day was first observed on May 11, 1999. The day was chosen because on this day India successfully broke into the elite group of countries with nuclear weapons. On 11 May 1998, India successfully conducted three nuclear tests at Indian Army's Pokhran Test Range in Rajasthan. The tests were conducted under operation Shakti. Two more nuclear tests were conducted on May 13. All the tests were led by the late A.P.J. Abdul Kalam, who went on to become India's eleventh president. The mission was carried out by Indian Army along with Defence Research and Development Organisation (DRDO), Bhabha Atomic Research Centre (BARC), and Atomic Minerals Directorate for Exploration and Research (AMDER).

Participants in the meeting:

- Dr Reecha Sharma
- Manjeet Patterh
- Prof Balraj Singh
- Arvind
- Dr. Sanjay Gupta
- 41 others
- You

Dr. Sanjiv Gupta is presenting

Technology's Role in Economic Development

- Technology encompasses a huge body of knowledge and tools that ease the use of economic resources as a way to **produce goods and services efficiently and innovatively**.
- Technological progress is essential to economic growth and development, and the more advanced the technology available, the **more quickly the local and global economy can improve**.
- Time is Money**
 - Technology can **save the time** it takes to produce a good or deliver a service, contributing to the overall profits of a business.
- Efficiency**
 - Technology can contribute to the efficiency of a **business's output rate**, allowing for larger quantities of products to be moved or of services to be rendered.
